

TAI195001

Cart with E Cylinder and Regulator Compressed Oxygen Systems and Components meet or exceed requirements to support the home oxygen therapy patient and the provider. They are applicable for virtually all home oxygen prescriptions.

TAI197011

Special design has three inside channels that help prevent the tubing from becoming occluded. Ideal for home patients where long tube lengths can cause a kinking problem. Various sizes offer are, 7', 15, 25' and 50'.

TAI195520

The 5-liter concentrator with SensO2 is the right choice in oxygen concentrators. These reliable concentrators require little maintenance and are easy to service. More important, they consistently provide high concentrations of oxygen and protect patients with an extensive alarm package.

TAI195512

The 10-liter Platinum concentrator. The Platinum 10 delivers the reliability, performance and value advantage you have come to expect from the Platinum line of concentrators and provides an attractive alternative to liquid systems. The Platinum 10 is available at up to 10 LPM for high flow patients, and has less than 10 parts different from the Platinum XL 5-Liter concentrators.

TAI190511

HomeFill II Oxygen Compressor - The HomeFill(TM) II complete home oxygen system will revolutionize ambulatory oxygen by allowing patients to fill their own high-pressure cylinders from a concentrator. The HomeFill is a multi-stage pump that simply and safely compresses oxygen from a specially equipped 5-liter or 10-liter concentrator into oxygen cylinders in sizes ML4, ML6, M6 and M9(C). The ability to fill their own cylinders gives ambulatory patients greater independence and freedom. Home care oxygen providers will also benefit from the virtual elimination of time-consuming and costly service calls associated with cylinder and-or liquid oxygen deliveries.

TAI198100

A complete set of the Oxygen Homefill II unit that will be set at a patient home.

TAI146767

The nasal cannula is used for patients needing only low-flow supplemental oxygen. Patients with breathing difficulties and conditions such as emphysema or other pulmonary pathologies require the nasal cannula. The flow rate for the cannula is as ordered by the physician.

TAI144546

The **oxygen face mask** is used for patients requiring more oxygen than is delivered via the cannula. The oxygen face mask differs from the Non-Rebreather.

TAI146105

The pocket-size Digit finger pulse oximeter is a convenient and economical solution to fast, reliable SpO₂, pulse rate and pulse strength measurements. Its compact size is ideal for home use.

TAI199410

Our portable Oxygen systems sizes ML2, ML4, ML6, and ML9 meet or exceed requirements to support the home oxygen therapy patient and the provider.

TAI199410

The Pulse Oximeter provides fast, reliable SpO₂ and pulse-rate measurements on any patient from infant to adult. It's designed for simple, accurate spot-checking.

TAI194055

The sleek, new Stratos Portable Desktop aerosol compressor is small enough to fit in the palm of a hand, yet powerful enough to deliver a fast, effective aerosol treatment. It's speed, style and ease-of-use make the Stratos Portable an outstanding option for patients desiring mobility and expediency in an aerosol nebulizer/compressor unit. The accessory package that accompanies the Stratos Portable unit includes a high-performance, custom reusable nebulizer with mouthpiece & tubing, an AC power cord, a DC car adapter, 5 disposable replacement filters and a convenient carrying case. In addition, a custom battery pack for the Portable unit is available as a separately purchased item.

TAI193350

The Aerosol Compressor offers durability, economy, and performance in a stylish new unit. It is small enough to fit in a 1/2 sq ft desktop space, yet it is powerful enough to deliver a fast & effective aerosol treatment.

TAI198105

Aerosol Mask or Mouthpiece conveniently packaged with nebulizer medicine container and tubing.

TAI197100

The Aerosol Compressor offers durability, economy, and performance in a stylish new unit. It is small enough to fit in a 1/2 sq ft desktop space, yet it is powerful enough to deliver a fast & effective aerosol treatment.

TAI192135

Comfort is inherent in the design of the masks. Created with extensive patient input, the masks offer innovative features that have made it preferred by patients.

TAI155611
